

What is **TEKNON™**?

TEKNON™

is a natural, patented biological formula developed in the USA after extensive research by pioneer scientists in metabolic and neurological disorders, including Autism. It is a food supplement, not a medicine.

TEKNON™

contains:

- Natural extracts from genetically compatible plants
- A specific type of camel milk powder

It is a multi-ingredient natural product designed to support overall metabolic function.

Who Can Take TEKNON™?

TEKNON™ is safe for all ages.
It enhances gut microbiome health
and improves nutrient absorption.

- Children with Autism or on the spectrum benefit the most.
- Benefits are not limited to Autism — anyone can experience improved gut metabolism,

which supports:

- Overall health
 - Vitality
 - Longevity
- 
- 

What Are the Effects of TEKNON™?

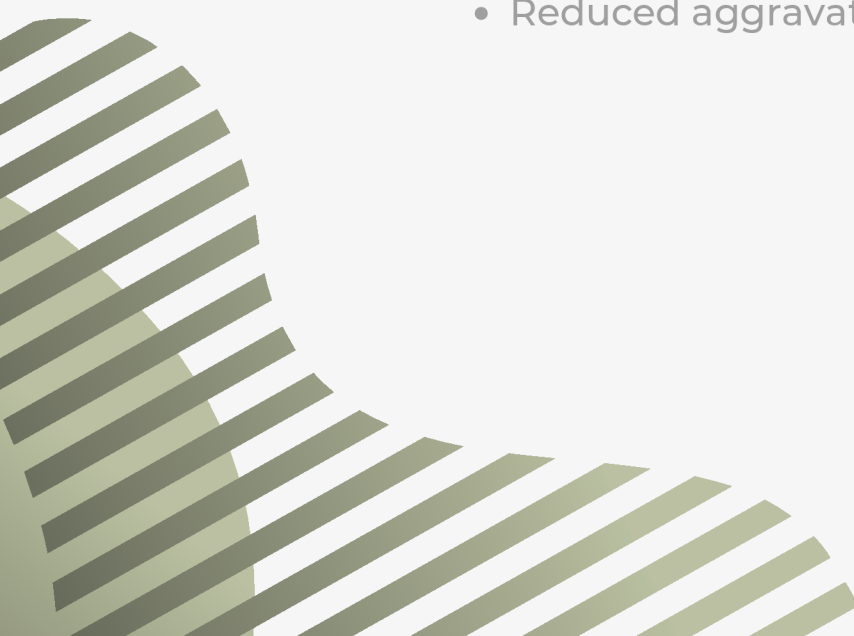

As TEKNON™ improves gut metabolism and nutrient absorption, it positively impacts the gut-brain axis.

Initial noticeable effects:

- Improved digestion and bowel habits
- Better sleep patterns
- Reduced aggravated behavior

With continued use, other potential improvements include:

- Enhanced social communication
- Improved cognition
- Additional biological and metabolic benefits based on the individual's age and condition

When Can I See Results?

Effects generally appear within 4–6 weeks, depending on age and severity of the case

Signs it's working:

- Better digestion and bowel habits
- Improved sleep (duration and quality)
- Gradual behavioral changes
- Reduction in aggression

How Many Times and When to Take TEKNON™?

- 
- General recommendation: 1–2 sachets daily, depending on age, severity, and duration of use
 - Initial dose for everyone: 2 sachets/day for the first 3 months
 - Best time: Always before meals
 - Ideal spacing: 8–12 hours apart
- 

Age-Specific Dosage:

Children under 9 years:

- 2 sachets/day (morning & late afternoon/evening) for 3 months
- Then may shift to 1 sachet/day

Children aged 9–15 years:

- 2 sachets/day for 3 months
- May reduce to 1/day based on improvement
- Can continue with 2/day if needed

15 years and older or severe conditions:

- 2 sachets/day (morning & late afternoon/evening)

Important:

- Take the second dose no later than 4:30–6:00 PM for good sleep quality
- Daily consistency is crucial — skipping doses can affect results

How to Take TEKNON™

Each sachet contains 26g of powdered formula, ready to mix and drink.

To prepare:

- Mix with 100–200ml of cold water (adjust to taste/consistency)
- Shake only using the provided shaker for full dissolution
- Alternatively, mix with plain cold yogurt (solid or liquid, unflavored)
- Refrigerate the drink and consume within 24 hours

Precautions When Mixing

- Do NOT use a blender (it breaks the formula)
- Do NOT use metal spoons
- Do NOT mix with hot/warm water
- Avoid sugar or caffeinated drinks

Are There Any Side Effects?

TEKNON™ is considered safe.
However, as with any supplement:

- Mild side effects like gas or rarely diarrhea may occur
 - If you experience any unusual symptoms, consult a doctor or visit a hospital
- 
- 

Storage Instructions

Shelf life: 18 months

Store at room temperature (up to 25°C)

Once mixed:

Store in the refrigerator

Consume within 24 hours

Discard any remaining after that time
